

TECHNICAL SPECIFICATIONS

Input voltage	-100 / 110 / 230 VAC - 50 / 60Hz (linear transformer) -100~240 VAC - 50 / 60Hz (switch mode power supply)
Output voltage	12 VDC or 24 VDC
Power / current	maximum 3 A at 24 VDC / 6A at 12 VDC
Over-current protection	3 A per actuator output
Actuator connections	from 1 to 3
Control connections	1
Protection grade	IP20
Protection class	Class II
Fixing type	on the ground or attached on frame
Duty cycle	10% (2 mn operation / 18 mn rest)
Colour	black (RAL 7001)

Options :

Power / current	4.5 A at 24 VDC
Synchronisation function	Connected to actuators with hall effect sensors
