

Battery-Box VEOBOX III

TECHNICAL SPECIFICATIONS

Power supply	100~240V AC – 50 / 60Hz (SMPS)
Output voltage	24V DC
Current	maximum 9 A @ 24V DC
Actuator connexions	1 to 2 actuators
Control connexions	1
Laptop / PC connexion	- function settings - statistics of operation analysis
Integrated charging function	- charge level display on LCD display - sound and visual discharge alarm
Soft start / stop function	on main actuator
Operation cycles recording	by time counter
Overload protection	programmable from 5A to 9A per output (with alarm)
Over duty protection	electronic protection inside (with alarm)
Protection grade	IP65
Batteries	2 x batteries 12V - 5 A/H
Battery charge optimisation	charge balancing system
Duty cycle	10% (2 mn operating / 18 mn stop)
Color	Front casing Light gray (RAL 7035) / Back casing Dark gray (RAL 7016)

Options :

Battery charge indicator	LCD display on battery pack
External battery charger	separate charger
Replacement of battery-pack	additional battery-pack

DIMENSIONS

Unité : mm
