

TECHNICAL SPECIFICATIONS

Motor type	24 Volts DC or 12 Volts DC
Maximum strength	800 N in push / 800 N in pull
Strokes	standard or tailor-made
Speed	maximum 18 mm / sec. unloaded
Protection grade	IP42
Operating temperatures	+5° to +40°
Duty cycle	10% (2 mn operation / 18 mn rest)
Inner / outer tube material	Aluminium
Colour	black

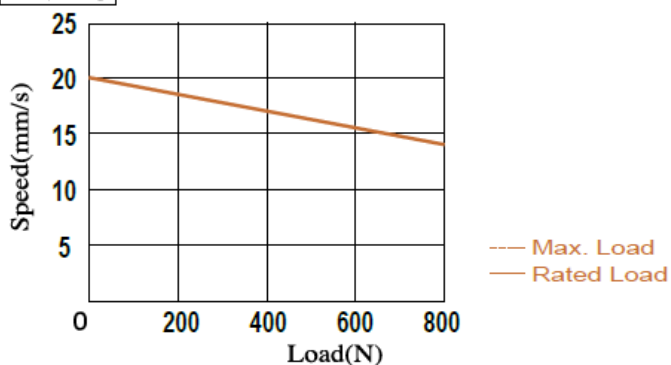

Options :

Fixing type	various models with or without clevis
Protection grade	IP54

PERFORMANCES

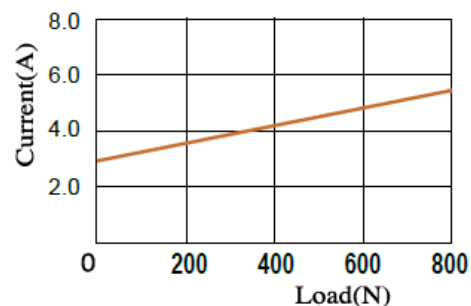

Speed / Load

12V DC

Current / Load

12V DC
