

# Vibration motor VM

## TECHNICAL SPECIFICATIONS

Input voltage	24 VDC or 12 VDC
Maximum amperage / speed	0.5 A at 24 VDC / 3500 rpm
Fixing	-screwing holes for attaching on device frame -or mounting plate to be screwed (sketch below)
Temperature protection	thermal protection integrated
Duty cycle	10% (30 mn operation / 300 mn rest)
Power supply	control box SMPS
Applications	drive of vibrating devices

## DIMENSIONS
