

## TECHNICAL SPECIFICATIONS

Input voltage	12 Volts DC or 24 Volts DC
Operation power	65 Watts maximum
Starting torque	55 Nm maximum
Rotation direction	clockwise or anti-clockwise
Rotation speed	35 rpm maximum
Gear ratio	1: 50
Drive	cylindrical shaft with grooves
Sealing protection	IP22
Operating temperatures	-30° to +80° C
Operation	intermittent or continuous
Inductors	magnets
Weight	2.4 Kg

### Options :

Sealing protection	IP44
