

## TECHNICAL SPECIFICATIONS

Input voltage	24 VDC
Output voltage	24 VDC
Actuator connections	2 x synchronized actuators type V70
Power / current	maximum 6 A per actuator at 24 VDC
Synchronisation / Memory function	-by Hall effect sensors -by Reed sensors
Control connections	1
Over-load protection	7.5 A per actuator
Protection grade	IP20
Duty cycle	10% (2 mn operation / 18 mn rest)
Colour	Pantone 431C (dark grey)

### Options:

Software limit protection	-with software limit: at both ends of stroke actuators stop when they reach software limit
	-without software limit: at both ends of stroke actuators stop when they reach internal limit switch
